Distribute Midnight Notes

Midnight Notes is a political tool. For those of you who share politics with us, we ask you to help expand the distribution of Midnight Notes. We would like you to buy in bulk at a lower price, then act as a small distributor. You are not likely to become a distribution magnate, but you will help in the circulation of political discussion and in the continuation of Midnight Notes.

In the U.S. and Canada, you can buy 5 for \$10, 10 for \$15, more for \$1.50 each. Elsewhere, you can buy 5 for \$15, 10 for \$25, \$2.50 each for more, U.S. money please.

Sustain Midnight Notes

We've been coming out irregularly for years now, and friends tell us how pleased they are that we do. Thanks. However, like any journal in opposition to capital, we seem not to make money. Thus, we continue to publish because Midnight Noters and a few friends contribute to the costs (over \$1000) of each issue. We could use a few more friends. Please send us money. Amounts of \$50 and \$100 are particularly helpful; of course we'll accept less, and naturally we'd be very happy to receive more. \$50.00 will get you a "lifetime" subscription, though we will continue to hope you have many lives...
